

TECHNICAL DATA (ACROW FLEXA BOARD)

TECHNICAL PROPERTIES

Dimensions Variable as per request	Length: Up to 3300mm Width: Up to 1250mm Thickness: 5mm - Up to 25mm
Standard Flexa Board Dimensions	2440mm X 1220mm X 18mm
Tolerance (MM)	Length, Width, ± 1%, Thickness ±1mm
Density (GRM/CM2)	0.55-0.65
Static bending (KN) for 18mm	>1.1
Modulus of Elasticity (MPA)	>1350
Vicat Softening Temperature °C	>100
Charpy impact strength (KJ/M2)	>15.4
Alkali resistance	< 0.72% Visual surface will not wrinkle, bubble or crack
Water Resistance	Will not be affected by Water, will not bulge or deform.
Shore hardness D	>75
Water retention rate	Water Retention <1.5%
No. of use	>20 times in slabs, 30 times in walls/ columns & 50 times in panels
Stripping	No release agent needed
Fire retardant	Grade C2

Cost Effective

Local Manufacturing

Durable

Easy to Install

Light Weight

UV Resistant

Weather Resistant

Water Resistance

Easy to Clean

Insect Resistance

Recycle

Green Product
